From a 'Dusty Corner'***Taking the Chill Off of Winter***

There doesn't seem to be much snow in the forecast, but I can feel winter settling in—cold days with a windy chill and even colder nights. What a great time to put another log on the fire and listen to a CD of some great theatre organ music! And we have some, too. A whole collection of CDs, tapes and record albums was donated to us by Bob Hauf's wife after he died. Roy Wainwright inventoried the collection and is holding it at his house.

We want to make the collection available to members of SVTOS through some kind of lending library arrangement, but we need someone to be the librarian. Could that be you? Is there a little voice in your head saying "I could do that"? If so, please give me a call, 717-795-2775, and I'll be happy to fill you in on the details. I'm pretty sure it wouldn't take much time.

We also need someone to head up the club's outreach to the community. Right now all that means is scheduling people to play at Masonic Village—and maybe that's all this job entails. But it could be expanded to other venues and other events if the member had the time and interest in doing so.

SVTOS is blessed with a bunch of really good organists and a number of them are featured in the upcoming Showcase meeting—February 13. This meeting would normally be open only to Regular Members, but because we are featuring our own members, we are inviting all Associate Members to be our guests that evening. So everyone come on out. And it's the day before Valentine's Day. So even if there is a little snow, bring your spouse or significant other and enjoy an evening of great theatre pipe organ music played on the Mighty Wurlitzer. Parking around the theatre is free after 5:00 p.m.

-Dusty

Hi Roy,

We wish all of you at SVTOS a Very Merry Christmas. As you may know our WurliTzer is going to a new home at the Engineer's Club in Baltimore. We and They are very excited about it. It is going to be beautiful and will be heard in a proper site. It will be heard by all in a restored ballroom in a mansion near the Washington Monument.

Roy

Perhaps you can assist me in locating someone that likes to build or repair pipe organs.

I have a home made player pipe organ that needs a good home. I would be pleased to donate it and a spare rank of metal pipes and parts to anyone with an interest. The organ has a 44 note keyboard and a bell set. I also have a large assortment of piano rolls.

Thank you for your kind attention to this matter,

Bob Lichliter (lich@verizon.net) 717-730-9329

Dear Dusty,

We are out there searching for young organists who might want to enter the **ATOS Young Theatre Organist Competition and we need you and your Chapter's help!**

The YTOC has been unable to produce a viable competition for the past two years due to a lack of applicants. This is extremely distressful in light of the fact that without upcoming young theatre organists the theatre organ movement will continue to decline. Presently we have four young theatre organists under the age of 30 that performed at the ATOS 2011 Convention in Providence. All of them were excellent and all of them were winners of the competition. The YTOC is the best showcase for young theatre organ musicians and is an essential part of ATOS's role in assuring the future of the organization and the entire theatre organ movement.

Please search diligently for any young person between the ages of 13 and 24 who plays the organ... be it classical or theatre...or just for their own amusement. See if they might be interested in joining the YTOC, it doesn't cost anything and the rewards can be immensely gratifying...or let me know and I will approach them about entering.

The entry form and rules are on our website: <http://www.atos.org/programs-awards/applications>

I am currently acting as interim organist for the First United Methodist Church in Ephrata, PA. I would like the interim to be as short as possible, so could you find space in the newsletter for the following ad? Not mentioned in the ad is the fact the Ray Brunner et al did the console work. The organ has a 12 memory 22 piston combination action. It is all under expression. pleasing tremors. Nice strings and vox, lovely flutes, good principal chorus on great plus a nice trumpet and oboe. Don

Position available: Organist/Accompanist

Ephrata First United Methodist Church (68 North Church St., Ephrata, PA 17522), is searching for a qualified, experienced organist/accompanist, with employment to begin as soon as possible. The primary responsibility of this position is to prepare/present music weekly for the church's traditional Sunday worship service at 8:30 a.m., as well as additional services to include, but not limited to: Holy (Maundy) Thursday, Good Friday, Christmas Eve, and other scheduled church celebrations throughout the year. This person will also be expected to accompany for special music, as well as the Sanctuary Choir, which currently rehearses on limited Thursday evenings as scheduled and sings one Sunday per month. Organist will be expected to commit to 48-50 Sundays out of the year. Sight reading skills are a must, and the ability to improvise and modulate on short-notice is also a plus.

Position is part-time. Organist may need to be flexible and available for other services as needed by the church, such as weddings and funerals (for additional compensation).

The organist will report to the Director of Worship Arts.

Resumes and other relevant materials of qualified, interested candidates may be sent to the attention of Scott Byrom at the church address above, or via e-mail at scott@ephratafirst.org. Additional questions, call 717-738-2465.

The church organ is a two-manual, 11-rank M.P. Moller pipe organ, installed in 1954, rebuilt in 1986. Console replaced and midi interface added in 2011.
